“ My name is Mickey Updegraff and I worked with Betty at Healthsouth in NewCumberland, Pa. Betty quickly became a great friend and would have myself and the other staff to her home for lunch. We were a small clinic, so we were all good friends. What my memory is that the other 3 employees (all ladies by the way) would kiddingly become irritated because Betty always made whatever I requested for lunch. Betty is a “home cooking” lady, so you can imagine everything she made was fantastic- mostly because she made it with true love. I’m sure I will never have a better peach pie with crumb topping! I love you Betty! I’m a better person for knowing you and it’s a privilege to call you my friend!
