“ To the Baker Family,
We have only learned of Cheryl's Passing today. Our Memories of her will always include how she would always greet everyone, with a Smile & a Hello. None of us are ever prepared for sudden Loss. Our Heart's & Thoughts will remain with you through the coming months. Cheryl, was devoted and proud of you All. Also, she reached out to Others, a Quality that many people lack. She Always had a Positive Attitude as well! Blessings go with you, as you follow this difficult Path to Healing. Her Light will always Shine through you. Sincerely,
G. & E Mills

“ I couldn't have asked for a better mother in law. You always made sure your kids were taken care of. Thank you for all the precious memories. I love you and I can't believe you're gone but never forgotten. I'll take good care of your daughter and our son. We all miss you dearly. Rest easy and spread those angel wings as I know you're up there in heaven looking down watching over us.

“ My mom Cheryl was more than just my mom she was my best friend. The bond she had with my son Chase and her other grandson my brothers son Greyson was something special to watch. Right now I'm glad I photographed every moment I had with her as I'm looking back and I'm able to see just how happy she was to be with her family. She was always such a kind heart and my heart breaks to not have her around anymore. Her Husband Brian my father we are taking extra good care of for you mom because he misses you dearly as well. He is recovering from his stroke he had back in November. I have posted a lot of the good memories we shared together as a family and you're always with me and will always have a place in my heart. I love you so much mommy. I know you're no longer in pain and are in heaven looking down upon us seeing how much you were loved and know I would do anything I could to make you happy and at peace. You may have left us but you will never be forgotten. As I tear up finishing writing this you are in his Embrace now and there won't be a day that we don't miss you. With that I love you Momma because god only takes the best.
