“ Nancy Peterson was very important in my life. She was my first and second grade teacher at the former Major Bent Elementary School in Steelton, PA. She was a wonderful teacher and a loving person. I was among the first Afro American children to go there and I can truly say that I was not treated any differently by her or my classmates because of the color of my skin. Years later, I did my student teaching under her and upon my graduation was hired and taught in the classroom next to her room in the Felton building in the former location of the Steelton Steelton Elementary School. I will never forget this sweet lady and the influence that she had on my life. May you be blessed with God’s Comfort and Love as you mourn and celebrate her life. 🙏❤️🙏❤️🙏❤️

Nancy was a seasoned teacher when I joined the staff at the Felton Building in Steelton. She was warm and kind with a great sense of humor. May her family be comforted in sharing her with us. May her soul rest in peace. Kathy Luft

Thank you for these meaningful memories of my Aunt Nancy. Interestingly enough, not only was her sister a great middle school science and English teacher, but my brother sought a career in middle school education after years of being a civil engineer, and I switched from college admissions administration to high school English teaching. We must be related. We miss her dearly, but she will always be with her sister Eileen (who is thankfully still with us), and nephew Rich and me, niece Kerry.
